RUTIK KADAM

Data Analyst | Business Intelligence | Data Visualization
Pune, Maharashtra, India | rutikkadam837@gmail.com
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with 2+ year of experience turning raw data into actionable business insight. Proficient in Python, SQL, Power BI, Tableau, and Apache Spark, with a track record of automating recurring reports (cutting manual effort by 40%) and building executive-facing dashboards for KPI tracking. Comfortable owning a project end-to-end — from data cleaning and exploratory analysis through visualization and stakeholder presentation.

TECHNICAL SKILLS

Languages: Python, SQL, Java, Node.js
Data Visualization: Power BI, Tableau, Excel (Pivot Tables, VLOOKUP/XLOOKUP, Charts), Matplotlib
Databases: MySQL, SQL Query Optimization, Relational Database Design
Big Data & Analytics: Apache Spark, Apache Zeppelin, Databricks, Hadoop
Tools & Platforms: GitHub, GitLab, Jupyter Notebook, Streamlit, Docker, Selenium
Other: Exploratory Data Analysis, Automation, Generative AI, Prompt Engineering, HTML/CSS/JavaScript/ReactJS
Core Competencies: Dashboard Development, KPI Reporting, Data Cleaning & Preprocessing, SQL Query Optimization, Workflow Automation, Business Intelligence, Statistical Analysis, Data Storytelling, Stakeholder Reporting, Predictive Modeling

PROFESSIONAL EXPERIENCE

Data Analyst **Aug 2024 – Aug 2026**
Need-Data

- Conducted exploratory data analysis on large datasets to identify trends, patterns, and operational insights for business stakeholders.
- Developed automated reporting solutions using Python, reducing manual reporting effort by 40% and improving turnaround time.
- Built and maintained interactive Power BI dashboards for KPI tracking, business monitoring, and executive-level reporting.
- Partnered with cross-functional teams to gather requirements and translate business questions into analytical solutions.
- Drove workflow optimization initiatives by surfacing data-driven insights that informed process improvements.

Data Analyst Intern **Jan 2024 – Jul 2024**
Encryptix

- Optimized SQL queries to improve reporting efficiency and reduce data retrieval time.
- Automated data preprocessing and validation workflows using Python, improving data quality and consistency.
- Assisted in developing analytics reports and predictive models to support business decision-making.
- Authored clear technical documentation and helped standardize reporting practices across the team.

PROJECTS

Fire Detection System **CNN + PyTorch**

- Built a convolutional neural network model to detect fire in images for early-warning safety applications.

Olympic Insight Project **Apache Spark, Power BI, SQL**

- Processed large-scale Olympic Games datasets using Apache Spark for distributed analytics.
- Built Power BI dashboards and SQL queries to surface historical trends, medal counts, and country-level performance insights.
- Implemented machine learning workflows to deliver scalable, repeatable analytical results.

Car Price Prediction Web Application **Python, ML, Streamlit**

- Developed and deployed an ML-powered web application using Python and Streamlit to predict used car prices from user inputs.

EDUCATION

VIT Pune **2021 – 2023**
Master of Computer Applications (MCA), CGPA: 8.44

Moolji College, Jalgaon **2018 – 2021**
Bachelor of Computer Applications (BCA), CGPA: 9.25

CERTIFICATIONS

Data Science Certification (Testbook) • Power BI Certification • SQL Certification • Selenium Certification • Hadoop Certification
