

RUTIK KADAM

Data Analyst | Business Intelligence | Data Engineering Enthusiast
India | rutikkadam837@gmail.com
LinkedIn: linkedin.com/in/rutik-kadam-252b39243 | GitHub: github.com/MerCS-r | E-Portfolio: <https://rutikportfolios.vercel.app/>

PROFESSIONAL SUMMARY

Data Analyst with 1+ year of experience in data analysis, dashboard development, automation, and business intelligence solutions. Skilled in Python, SQL, Power BI, Tableau, Apache Spark, and data visualization with hands-on experience in KPI reporting, workflow automation, and analytical reporting. Strong interest in front-end technologies, DevOps practices, and database systems with the ability to collaborate across cross-functional teams and deliver high-quality analytical solutions.

TECHNICAL SKILLS

Programming & Backend	Python, SQL, Java, Node.js, Docker
Frontend	HTML, CSS, JavaScript, ReactJS
Visualization	Power BI, Tableau, Excel, Matplotlib
Databases	MySQL, SQL Query Optimization
Big Data	Apache Spark, Apache Zeppelin, Databricks, Hadoop
Tools & DevOps	GitHub, GitLab, Jupyter Notebook, Streamlit, Selenium
Other	EDA, Automation, Generative AI, Prompt Engineering

PROFESSIONAL EXPERIENCE

Data Analyst | Need-Data (Aug 2024 – Aug 2025)

- Conducted exploratory data analysis on large datasets to identify trends, patterns, and operational insights.
- Developed automated reporting solutions using Python, reducing manual reporting efforts by 40%.
- Built interactive Power BI dashboards for KPI tracking, business monitoring, and executive reporting.
- Collaborated with cross-functional teams to gather requirements and deliver analytical solutions aligned with business objectives.
- Supported workflow optimization initiatives through data-driven insights and process improvements.

Data Analyst Intern | Encryptix (Jan 2024 – Jul 2024)

- Optimized SQL queries to improve reporting efficiency and data retrieval performance.
- Automated data preprocessing and validation workflows using Python.
- Assisted in developing analytics reports and predictive models for business use cases.
- Created clear technical documentation and maintained reporting standards.

PROJECTS

Fire Detection System | (CNN + PyTorch) Power BI + SQL

- Designed KPI dashboards to monitor operational and business performance metrics.
- Automated reporting workflows to improve decision-making efficiency.

Olympic Insight Project | Apache Spark + ML + GitHub

- Processed large-scale datasets using Apache Spark for distributed analytics.

- Implemented machine learning workflows for scalable analytical solutions.

Car Price Prediction Web Application | Python + ML + Streamlit

- Developed an ML-powered web application using Python and Streamlit for predictive analytics.

EDUCATION

- MCA | VIT Pune — 2021 – 2023 | CGPA: 8.44
- BCA | Moolji College, Jalgaon — 2018 – 2021 | CGPA: 9.25

CERTIFICATIONS

- Data Science Certification — Testbook
- Power BI Certifications
- SQL Certifications
- Selenium Certifications
- Power BI Certifications
- Hydra Certifications
- Hadoop Certifications
