DATA ANALYST | MACHINE LEARNING | BIG DATA

PROFESSIONAL SUMMARY

Data Analyst with experience in **data analysis, machine learning, and AI-driven solutions**. Skilled in **Python, SQL, Apache Spark, and Power BI** for extracting insights and building scalable data solutions. Proven ability to perform **EDA, develop ML models (NLP & Computer Vision), and automate workflows**. Strong foundation in **statistics, data visualization, and big data processing**.

TECHNICAL SKILLS

Programming: Python, SQL, Java

Data Analysis: Pandas, NumPy, Data Cleaning, EDA, Statistical Analysis

Machine Learning: Scikit-learn, PyTorch, NLP, Computer Vision

Big Data: Apache Spark, Apache Zeppelin

Visualization: Power BI, Tableau, Matplotlib, Seaborn

Tools: Excel, Jupyter Notebook, Streamlit, Selenium

Other: Generative AI, Prompt Engineering, Automation

PROFESSIONAL EXPERIENCE

Data Analyst — Need-Data Aug 2024 – Aug 2025

- Conducted **Exploratory Data Analysis (EDA)** on large datasets to identify trends and insights
- Developed **Python automation scripts**, reducing manual processing effort
- Built and deployed **Machine Learning models (NLP & Computer Vision)**
- Created **interactive dashboards using Power BI** for business decision-making
- Applied **AI-driven techniques** for data processing and workflow optimization
- Mentored trainees on **Python, ML pipelines, and deployment practices**

Data Analyst Intern — Encryptix Jan 2024 – Jul 2024

- Designed and optimized **SQL queries**, improving performance and efficiency
 - Built **end-to-end ML pipelines** for classification and prediction tasks
 - Automated **data preprocessing and validation workflows using Python**
 - Integrated APIs and analytics tools for reporting solutions
-

Java Trainer Jul 2023 – Dec 2023

- Delivered training on **Core Java, OOP, JDBC, and JavaFX**
- Mentored students in **application development and debugging**
- Designed coding assignments and technical assessments

PROJECTS

Big Data Analytics Project (Apache Spark + Zeppelin + ML) ★

- Processed and analyzed large datasets using **Apache Spark (distributed computing)**
- Used **Apache Zeppelin notebooks** for interactive analysis and visualization
- Applied **ML models on large-scale data**, improving scalability and performance

Fire Detection System (CNN + PyTorch)

- Developed real-time **deep learning model** for fire detection
- Achieved high accuracy in image classification tasks

Car Price Prediction Web App (Streamlit + ML)

- Built and deployed ML model for price prediction
- Designed interactive UI using Streamlit

Movie Genre Classification (NLP + Python)

- Developed NLP model for automated text classification
- Applied feature engineering and text preprocessing techniques

EDUCATION

MCA (Computer Applications) — VIT Pune 2021 – 2023 | CGPA: 8.44

BCA — Moolji College, Jalgaon 2018 – 2021 | CGPA: 9.25

Certificate in Data Science — Testbook 2023 – 2024

PUBLICATION

OCR-Based Cheque Validation Using Image Processing — ICNTE 2023
